· PREP NOTE

MVA Deep Dive: Graduated Licensing, Medical Advisory Board, and Driving Records

For Ms. / [redacted] · 1:00 – 2:00 p.m.

The Block

One hour, directly after lunch. Audience is Maryland District Court judges. Hon. [redacted] is coordinating the course. Your block maps to two of the six course learning outcomes:

- Judges will learn about the MVA Graduated Licensing System and Medical Advisory Board.
- Judges will hear from the licensing agency concerning reading and interpreting driving records.

Suggested Coverage

- Graduated Licensing System — learner's permit, provisional, full license; restrictions and violations judges see on the docket.
- Medical Advisory Board — referral triggers, process, reinstatement pathway.
- Reading an MVA driving record from the bench — codes, conviction history, points, suspensions.

The Ignition Interlock material you presented in 2025 is not the focus this year. If natural overlap arises with interlock or re-licensure, include it as you see fit.

What Al Can Do

- Provide anonymized sample driving records if you want to walk through one live.
- Format your slides to the course palette and reproduce handouts for the participant binder.
- Coordinate with Judges and so their sentencing and masking content doesn't overlap with yours.
- Print benchcards or quick-reference sheets to your specs.

Key Dates

- Materials deadline: [redacted]
- Course date: [redacted]

The Ask

Let me know if you're available, and what you'd like to cover. I'll build the block around your call and get you whatever you need.
